

Build My CAKE

Create a Car Cup Cake Topper

intermediate

www.buildmycake.com.au

Step 1

You will need the transport set, select the fondant colours you like – roll them into small balls

Step 2

Roll the main colour into an even circle, your fondant needs to be 2 to 3mm thick for best results

Step 3

Using the plunger cutter press firmly and then press the plunger cutter, lift and press again to eject shape

Step 4

To form the details, we have cut another thinner shape in white

Step 5

Using the little plastic knife cut out the windows being careful not to elongate the shape place them on top

Step 6

Use the same technique to cut some black wheels or you can just roll some tiny balls of black fondant flatten and place over the tyre shape.

Step 7

Add the details like headlights and tail lights using tiny pieces of fondant or edible pearls

Step 8

Cut a round shape to fit your cupcake using a cookie cutter position your car and you are done!

.... and finally, let your creativity run wild. Use edible ink markers to draw details and enjoy.
